GRAND OPENING

January 2023

***How far can a child's
dreams reach?***

“Only to here?” asks Zablon Kuria, Founder and Executive Director of ROCKbridge Ministries. “No, you must dream big!” he tells the students he encounters.

A child's dreams should be limitless even when growing up in a community stricken with poverty. Revenues from Holiday Homes will support higher education for children from at-risk communities and the orphans graduating from Tumaini Mission School and Children's Home.

Building upon support from donors for the past 20 years through R.O.C.K. Bridge Ministries, Inc., Holiday Homes are income-generating structures that both aid the community and enable operations to be self-sustaining.

A dream fulfilled. After spending half of her school life at home due to a lack of funds, scholarship recipient, Assunta is now a mechanical engineer and lecturer at Naivasha Technical and Vocational College.
